Spain Will Go Into Bankruptcy, and Seek to Embroil the United States in a Row with Her Creditors.

Paris, Nov. 14.—At the request of the Spanish commissioners who found it im possible to prepare their memorandum forcible language that if they ever for presentation at today's meeting of again set foot in Wilmington they the peace commission, further action was deferred until Wednesday. Some mportance is attached to the delay as indicating that the Spanish commission artiliery regulars, and in that event the revolt would have assumed a much graver importance, and might perhaps will not sign the treaty of peace which compels Spain to give up the Philippine islands, and the Spanish commissioners will declare their mission is finished The Spaniards may suggest suspension of negotiations through the comm and a resumption between Madrid and Washington. This attitude of the Spaniards is explained by the fact that members of the Spanish commission have political alliances and personal respon-sibilities to constituencies and national creditors of Spain, which restrict them to certain lines, which is as far as the ministry at Madrid cares to go. If fiv-Spanish commissioners here signed any treaty yielding the Philippine slands to the United States without lessening Spain's debt in any appreciable degree, in fact they would be in danger of vio-lence at the hands of a mob.

The Spaniards will insist that the sox ereignty of Spain over the Philippine islands is beyond question, but will announce Spain's readiness to yield that sovereignty for an adequate equivalent, and then invite negotiations under

Spanish Instructions. The Americans are expected at future meeting to present carefully prepared a conclusion of their contention and conditions. Should they be no different from those already presented, the time will then have arrived when Spain will declare herself helpless and will await the next step of the United States whatever it may be. Thus Spain will be able to say to her creditors that she has done her utmost and the issue must rest between then and the United States.
